Tony,

Yes, I have been informed about the meeting & status report for San Jacinto & I do plan on attending Thanks for offering to coordinate with ERDC, but I plan to develop the report in coordination with Earl & Paul at ERDC

Thanks,

Gary Miller

Gary:

USACE and EPA R6 have a strategic partnership where our General and Mr Curry meet every six months to discuss important issues and initiatives affecting both agencies as well as the region The next meeting is 30 Aug and we are being asked for an update from EPA and ERDC on the San Jacinto Superfund site and assessment Mr Edlund is one of the Executive Board members and attends all of the meetings Maria Martinez is my EPA POC and she may be contacting you about preparing/presenting a status report on the project at the meeting I can contact ERDC for coordination if you wish Please let me know, if you're available to attend

Thanks

TONY

Gary:

Appreciate the quick assist I'll review the reports and let you know, if I need anything else Also, would you be willing to meet and update our SWG staff on the project sometime in future (perhaps during your next site visit)?

Thanks
TONY

Tony,

As we discussed, here are maps showing the damaged area of the San Jacinto Waste Pits cap as well as the location & results of the shallow (0 - 6") sediment sampling done in December 2015 These samples were collected within the damaged area & from accumulated sediment on top of the underwater portion of the cap

The damaged area was repaired in December, and I'm also attaching a figure with survey results showing the location of the new armor rock cap material over the damaged area

Finally, I am attaching several figures showing the sediment sample results located in and around the site; these sample were collected about 5 years ago as a part of the site Remedial Investigation One of these figures shows the surface sediment (0 - 6") and the other shows the sediment core (10 feet) results

Please let me know if you have any questions on this

Gary:

I spoke with Paul (ERDC) earlier and he informed me that EPA may ask ERDC for additional technical support I was hoping to get a copy of the sample location map and analytical results to determine impacts or risks to the Corps proposed dredging operations I'd appreciate any info you can share in this regard

Thanks
TONY

Thanks Tony,
Yes, Gary is the RPM for the San Jacinto Site. I included him on this email. CAS

Carlos A. Sanchez
Chief, Superfund AR/TX Section

Carlos:

I just received a copy of the press release for the San Jacinto SF discharge

BlockedBlockedBlockedBlocked<http://yosemite.epa.gov/opa/admpress.nsf/e8f4ff7f7970934e8525735900400c2e/83ddf70854df3fae85257f5c0077e6c5!OpenDocumentBlocked>

Some of the Corps and EPA staff were meeting to discuss dredging the Houston Ship Channel and sampling requirements. Is Gary Miller still the RPM? I'd like to get a little more details and information?

Thanks
TONY
